

Crowley County

What factors influence the risk of climate change to human health?

Social Factors	Health Conditions	Exposure Risk	Plans and Perceptions
Highest Risk	Highest Risk	Moderate Risk	Highest Risk

Sensitive Populations

Social factors, and health conditions that influence residents' climate-related health risks.

Social Factors

	Crowley County	Regional Average
Groups sensitive to climate change in the county	Highest Risk	Highest Risk
Percentage of the population under age 5	3%	5%
Percentage of the population under age 18	12%	20%
Percentage of the population ages 65 and older	13%	21%
Percentage of the population that is Black or African American	4%	1%
Percentage of the population that is American Indian or Alaska Native	1%	1%

Percentage of adults ages 18 and older who are obese	32%	31%
Percentage of the population without health insurance	6%	8%
Percentage of the population that did not get needed health care in the past 12 months	21%	21%

Exposure Risk

Climate-influenced environmental exposures, including extreme heat, wildfires, and drought, that put Coloradans' health at risk.

Climate Exposures

	Crowley County	Regional Average
Environmental exposures and climate factors in the county	Moderate Risk	Moderate Risk
Number of extreme heat days (at or above 90 degrees Fahrenheit)	78	63
Percentage of land rated moderate to highest risk for possible loss or harm from a wildfire	0%	6%
Percentage of weeks that any percentage of the county's population is in severe, extreme, or exceptional drought	43%	52%
Percentage of population who live in a wildland-urban interface (WUI)	99%	72%
Community flooding risk	Moderate	Moderate

Plans and Perceptions

Plans to address climate change impacts and local perceptions on climate change in the county.

Plans and Perceptions

	Crowley County	Regional Average
Current state of plans related to climate impacts and perceptions about the connection between climate and health in the county	Highest Risk	High Risk
Percentage of the population that believes that global warming is currently happening	62%	66%
Percentage of the population that believes that the impacts from global warming will harm them personally	40%	44%
Percentage of the population that believes global warming will harm future generations	60%	65%
Percentage of the population that believes local officials should do more to address global warming	50%	52%
Percentage of the population that believes global warming is already harming people	49%	54%
Has a county hazard mitigation plan	Yes	Yes, more than half have plans
Has a community wildfire plan	Yes	Yes, more than half have plans
County or most populated city has a climate action plan	No	Half or less have plans
Global Covenant of Mayors for Climate and Energy member	No	Half or less are members
Colorado Communities for Climate Action member	No	Half or fewer are members

*Regional averages include: Baca, Bent, Crowley, Huerfano, Kiowa, Las Animas, Otero, Prowers, and Pueblo counties
